Baho Project Report June 2018

Have our greetings in the Almighty Name of our Lord Jesus Christ. Thank you for your heart to support St Emmanuel (Mutanga Nord) Parish in global and Baho Project in specific.

With your support, church communities are being transformed and empowered in different approaches. We are influenced by what the Lord is doing and the livelihood testimonies seeing and hearing.

The following photos are expressing your lovely support:

You will see the house built on behalf of Esperance, the widow from Nyambuye new Church plant.

The photo at the right presents Esperance and her daughter between Rev. Gerance Manirambona, the Parish Vicar and Rev Jean Ndayisaba, the Baho Project Coordinator from the left to the right.

The photo at the left shows from the right to the left the Parish vicar, Esperance and the Baho Project Coordinator at the door of the built house.

The Nyambuye new Church plant is now growing up. There are some Christians who came from Bible study taking place at church venue every Thursday. After the bible study service, Christians went to visit Esperance home. The Baho project support is helping the new church plant to grow in number and faith. We are thankful.

People whom we gave pigs (1 in Nyambuye and 2 in Russhubi: the two new churches plants) will start to support others with pigs born. It seems very productive: one pig can produce around 10 to 12 pigs. In that given case, the one who is looking after each pig will stay with 5 to 6 and then the other part will be distributed to 5-6 families and so on.

People go on with 3 groups of “saving and credit program”: one of St Emmanuel Parish (Mutanga Nord), the two others from Nyambuye and Rushubi (the 2 new churches plant). It will be supportive while sharing the money at the end of this year 2018.

With God's Love in Christ,
Rev Jean Ndayisaba

The Baho Project Coordinator

Rev Gerance Manirambona

The St Emmanuel Parish Vicar
